

elcometer® 3080 Pencil Hardness Tests and Hardness Pencils

Can be used in accordance with:
ASTM D3363

This is a simple and effective technique to evaluate the hardness of many coatings.

The pencil lead, prepared beforehand by rubbing it on fine abrasive paper (400), is maintained at an angle of 45° and pushed with uniform pressure onto the sample, leaving either a superficial trace or causing destruction down to the substrate.

The Elcometer 3080 Pencil Hardness Tests are supplied complete with stand and a series of 14 pencils, ranging from 6B to 6H hardness values.

Part Numbers

Model	Description	Part Number
Elcometer 3080/3	Elcometer 3080 6B to 6H Pencil Hardness Test with Stand	K0003080M003
Accessories	Pencil Sharpener	KT003080P018
	Set of Pensils (6B-6H)	T50115771

Hardness Pencils – 12 pencils in each box – see below

Description	Part Number	Description	Part Number
Hardness Pencils 6B	KT003080P001	Hardness Pencils F	KT003080P008
