

# RPB Astro Blast Helmet

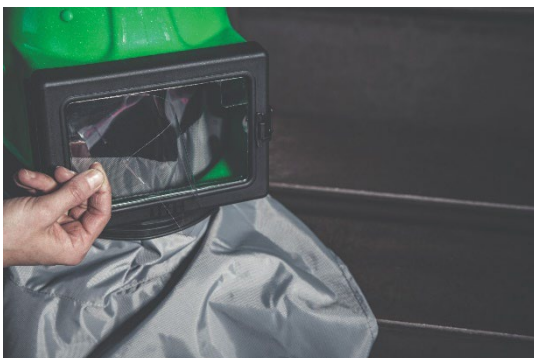

This Blast Helmet offers low lifetime maintenance and part replacement costs, providing unbeatable value without compromising safety.

The Astro Blast Helmet weighs just 1.2kgs, helping to reduce fatigue and minimise aches and strains across an operator's neck and shoulders. This advanced comfort enables enhanced productivity, allowing you to blast for longer.

Meeting safety standards worldwide, this classically designed flat lens helmet offers superior respiratory protection whilst preserving key areas including the face, neck and eyes.

## Features

- Streamlined air distribution system supports air movement across your breathe zone and over the lens to prevent fogging
- Soft neck seal with a durable nylon cape for a comfortable seal around the neck
- Manufactured from robust U.V stabilised and abrasive resistant material
- Optional tear-off lenses are available, saving up to 45 minutes per day
- Secure yet easy-to-remove cape attachment for quick replacement
- Removable head suspension allows for quick and easy cleaning
- Flexible breathing tube aids unobstructed head movement
- Cape is securely attached with 8 stud domes
- Lightweight design for increased comfort
- Large visor lens for widened field of view
- Compatible with supplied air
