

Sagola 4098 Automatic Spray Gun

The Sagola 4098 is a compact automatic spray gun designed for the application of ceramic and abrasive products.

Features

Compact & lightweight

Due to its small size and weight, it can be installed in places with restricted space.

Low maintenance

Product closure is accomplished using a membrane system.

3-year warranty

With minimal maintenance required.

Technical Specifications

Dimensions	70 x 90 x 110mm
Weight	470g
Operation inlet connection	8mm
Air Inlet Connection	8mm
Product Inlet Connection	BSP 3/8"
Minimum operational pressure	3.5bar
Maximum Air Pressure	6bar
Recommended maximum air pressure	2 - 3bar
Materials in contact with the product	Stainless steel, anodized aluminium, tungsten carbide, brass, Teflon
Recommended application distance	18 - 20cm

Part Numbers

Sagola 4098 Automatic Spray Gun with 765 Aircap & 1.40mm Stainless Steel Nozzle

Part Number: PG10250601

Sagola 4098 Automatic 765 Aircap

Part Number: PT56418266
