

Sagola 4240 Breathing Equipment Kit

Standards:

BS EN 1835 (protection factor of 40), EC 58459, BSi Product Certification. 89/686/CEE (EPI)

The Sagola 4240 is a complete Breathing Equipment Kit for all spray-painting activities. The Sagola 4240 Breathing Equipment Kit includes a belt, pocket regulator, coalescent filter to remove low levels of moisture and oil, 10 meters of hose and safety plugs, and 1.5 meters of hose spray gun outlet. The preset regulator incorporates a flow warning gauge with an integrated high efficiency coalescent filter and carbon filter to absorb vapour and odour.
