

Sagola MP2 Breathing Mask

Standards:

UNE-EN 140:1998, Directive UE 2016/42

The Sagola MP2 Breathing Mask and A1 Filter Set is designed to provide maximum respiratory protection from organic chemicals with a boiling point above 65°C, without causing discomfort for the user.

The Sagola MP2 Breathing Mask allows users to carry out their usual activities comfortably, as the mask adapts perfectly to any gesture or movement, always providing the highest possible level of protection.

The MP2 Breathing mask is composed of face mask and two filters, and covers the user's nose, mouth and beard and is manufactured of strong, lightweight materials that are non-hazardous for health and hygiene. The Sagola MP2 Breathing mask offers protection against A type gases.
