

# Sagola Super Flow Drying Gun

The Sagola Super Flow Drying Gun is a lightweight and practical tool designed to reduce drying time for waterborne paints. It features an adjustable venturi regulator for customized drying techniques, delivering up to 6,000l/min of air output to quickly evaporate water and speed up drying. The gun can be fully dismantled for easy cleaning and maintenance, while its heavy-duty construction ensures long service life.

## Technical Specifications

Part Number	Description
PT10340401	Sagola Super Flow Drying Gun
PT56418055	Stainless Steel Filter, 40 Mesh
Air Inlet Coupling	6.35 mm BSP
Weight	580g
Working Pressure	3 - 6bar
Maximum Air Flow	Up to 6,000 l/min
Air Consumption	300 - 600LPM
Application Distance	50 - 80cm
Air Filter	40 Mesh Stainless Steel
Dimensions	115 x 65 x 200mm
Compliance	ATEX CE Ex II 2G X

## Packing List

- Super Flow Sagola Super Flow Drying Gun
- Stainless Steel (40 Mesh) Filter
