

Sagola XTech 200 Airbrush

The Sagola XTech 200 airbrushes ensure precision design, smooth feathering, part retouching and marking with incredible accuracy.

From custom automotive paint jobs to graphic design and fine line illustration, when it's the tiny details that count, the Sagola range of XTech airbrushes, kits and accessories meet the needs of airbrush design, feathering, parts retouching and part marking.

XTech range airbrushes have been developed and manufactured under the strictest quality requirements to offer a reliable product with a high technical level.

The range is divided into 5 different models, one for each type of application.
